# 1 Why choose this Curriculum Framework?

## Key benefits

Cambridge Primary English as a Second Language empowers learners to communicate confidently and effectively and to develop the critical skills needed to respond to a range of information, media and texts. Cambridge Primary English as a Second Language also promotes active learning, develops thinking skills and encourages intellectual engagement. The programme develops a solid foundation for further study of English as a Second Language, and for study through the medium of English.

The structure of the *Cambridge Primary English as a Second Language Curriculum Framework* is designed to support effective teaching of English within and across the primary stages. There is clear progression of reading, writing, speaking and listening skills across the stages.

The curriculum supports an integrated approach to planning and teaching to develop effective communication skills in English. Throughout the curriculum, learners revisit and engage with language at deeper levels and in different contexts.

The learning objectives for learners of English as a Second Language are based on the Council of Europe's Common European Framework of Reference for Languages (CEFR), which is used widely both within and beyond Europe to map learners' progression in English. The CEFR provides an international standard which is widely recognised for describing language ability. Alignment to the CEFR makes it easy for schools and parents to understand the level of the English as a Second Language programme.

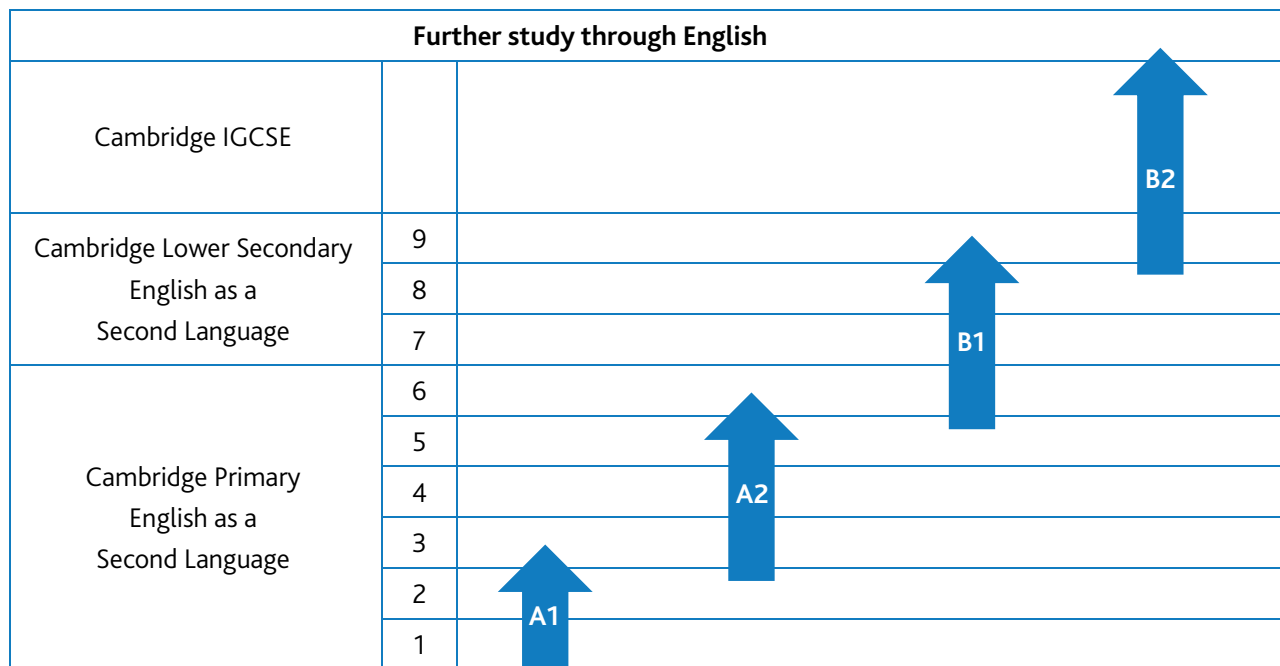

In line with the CEFR, learning outcomes in each strand for each successive stage are defined in terms of what learners *should be able to do* in English. The framing of learning objectives as a progressive sequence of 'can-do' statements encourages teachers to use learning-centred, activity-based approaches.

Learner progression in each strand within the *Curriculum Framework* is mapped in terms of the common reference levels in the CEFR. The CEFR describes language ability on a six-point scale, from A1 for beginners, up to C2 for those who have mastered a language.

A1	A2	B1	B2	C1	C2
Basic user		Independent user		Proficient user	

By identifying aspects of the curriculum which are reflected in the CEFR level descriptors (and specifically the Young Learner descriptors collated for ages 7-10 and 11-15), we provide guidance on how the English as a Second Language curriculum aligns to the CEFR levels.

The alignment of Cambridge Primary and Lower Secondary English as a Second Language to the CEFR is illustrated below. Cambridge Primary and Lower Secondary English as a Second Language programmes provide a solid foundation for the further study of English as a Second Language, and for further study through the medium of English at Cambridge IGCSE™ or O Level and beyond.

The Cambridge Primary programme includes English as well as English as a Second Language curriculum. You should choose the most appropriate curriculum to reflect the context of your learners. The differences between the English and English as a Second Language curricula are outlined on the next page.

## Supporting teachers

We provide a wide range of practical resources, detailed guidance, innovative training and professional development so that you can give your learners the best possible experience of Cambridge Primary English as a Second Language.

You will find most of these resources on the Cambridge Primary support site (<https://primary.cambridgeinternational.org>). Ask the Cambridge coordinator or exams officer in your school if you do not already have a log-in for this support site.

## Progression through the Cambridge Pathway

We have designed Cambridge Primary English as a Second Language to support learners to develop the skills required for success in their primary education and to progress to the next stage of the Cambridge Pathway. The *Curriculum Framework* is typically for learners aged 5 to 11, but it may be appropriate to use it for slightly different ages to suit your context.

You can download more information on progression from the Cambridge Primary support site.

## Teaching time

For guidance, this *Curriculum Framework* is based on learners having 4 to 5 hours of English as a Second Language per week (or about 120 to 150 hours per stage). Your actual number of teaching hours may vary according to your context.

## Assessment

We provide assessments designed to complement this *Curriculum Framework* for Stages 3 to 6. You can find more information on assessing Cambridge Primary English as a Second Language on the Cambridge Primary support site.

### Aims

Following the Cambridge Primary programme helps learners to lay the foundations for lifelong learning, including:

- curiosity about the world around them and enthusiasm for learning
- knowledge, understanding and skills that can be applied in and across subjects
- effective and confident communication skills, including in English
- understanding of their personal and local context, as well as having global awareness.

In Cambridge Primary English as a Second Language, learners:

- develop a curiosity about other languages and cultures and how these shape our perceptions of the world
- see themselves as successful language learners
- are able to communicate effectively through the skills of reading, writing, speaking and listening
- become confident in and enjoy reading a range of texts
- develop a solid foundation in the skills required for continued study of English as a Second Language and for study through the medium of English.

The Cambridge approach encourages learners to be:

Cambridge Primary English as a Second Language supports learners to become:

**Responsible** – Learners take responsibility for their learning, ask questions and look for opportunities to use their linguistic skills to express themselves.

**Innovative** – Learners actively explore and experiment with new language, making connections (to their own language) to build on what they already know and are able to do.

**Confident** – Learners develop their reading, writing, speaking and listening to become confident communicators in English. They feel empowered to take risks, try new language, and reflect on and learn from their mistakes.

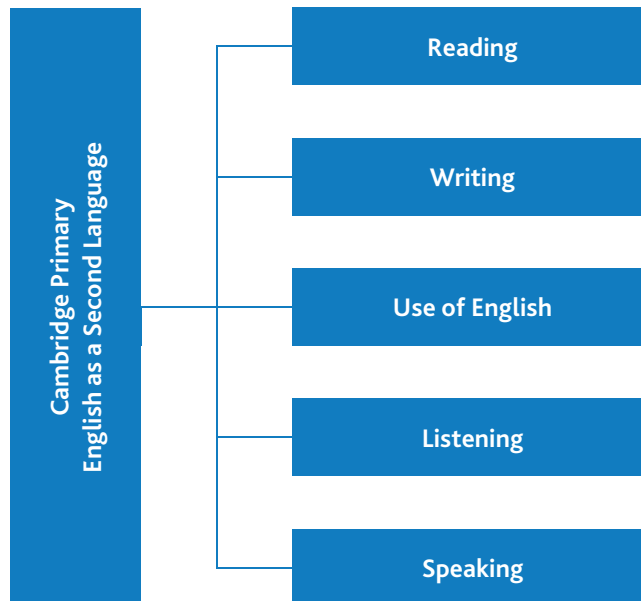

**Engaged** – Learners are curious about other languages, cultures and perspectives and take opportunities to discover new areas of interest through the medium of English.

**Reflective** – Learners develop the skills to plan, monitor and evaluate their own learning. They reflect on language learning strategies they have used before to consider how they will approach a new task.

## Overview of the strands

This *Curriculum Framework* provides a comprehensive set of learning objectives for Cambridge Primary English as a Second Language. These give a structure for teaching and learning and a reference against which learners' attainment and skills development can be checked.

We have divided the learning objectives into five main areas called 'strands' which run through every stage: Reading, Writing, Use of English, Listening and Speaking. These five strands and their respective learning objectives work together to support the development of knowledge, skills and understanding. The Use of English strand provides learners with the linguistic features they need to engage with the language receptively (Reading and Listening) and productively (Writing and Speaking).

Each strand is divided into 'sub-strands'. The names for the sub-strands for the Reading and Listening strands are similar. This is to help you to identify links between reading and Listening skills, and to reflect these in your teaching.

Reading	Listening
<p><b>Reading for global meaning</b></p> <p>Learners develop the ability to understand the main points of short and extended texts. For example, the topic or theme, who the author is, who the target reader is and the author's purpose.</p>	<p><b>Listening for global meaning</b></p> <p>Learners develop the ability to understand the main points of short and extended texts. ## Overview of teaching approaches

It is expected that teachers will adopt an integrated approach to planning and teaching English as a Second Language. Each lesson and unit need to provide opportunities for practice of all four skills as well as a focus on one or more learning objectives from the Use of English strand. The Use of English strand provides the linguistic features learners need to engage with the language receptively in the Reading and Listening strands and productively in the Writing and Speaking strands.

Integrating Use of English and the four skills:

- enhances learners' all-round development of communicative competence
- enables teachers to build a lesson around a theme or a topic relevant to the learners
- motivates learners to learn by building more variety into the lesson
- works at the level of realistic communication, where language tasks involve more than one skill
- exposes learners to authentic language
- challenges learners to interact naturally.

This integrated approach can, and should, be implemented from the start of Stage 1. For example, asking and responding to simple questions related to personal information and classroom routines draws on listening and speaking skills as well as an understanding of possessive adjectives and words and phrases to describe people and objects.

As learners move through the stages, previously studied language should be reviewed, extended and integrated into different practice tasks. For example, at Stage 1, learners are introduced to basic connectives such as *and*. At Stage 2, this understanding is extended to include a wider range of connectives and learners begin to integrate connectives into written practice.

You can find more information and ideas for teaching and learning activities in the *Cambridge Primary English as a Second Language Teacher Guide* and *Schemes of Work* available on the Primary support site (<https://primary.cambridgeinternational.org>).

The *Teacher Guide* will support you to plan and deliver lessons using effective teaching and learning approaches.

The *Scheme of Work* for each stage of Cambridge Primary English as a Second Language contains:

- suggested units showing how the learning objectives in the *Curriculum Framework* can be grouped and ordered
- at least one suggested teaching activity for each learning objective
- sample lesson plans.

You do not need to use the ideas in the *Schemes of Work* to teach Cambridge Primary English as a Second Language. They are designed to indicate the types of activities you might use, and the intended depth and breadth of each learning objective. These activities are not designed to fill all the teaching time for each primary stage. You should use other activities with a similar level of difficulty, for example, those from endorsed resources.

The *Teacher Guide* will support you to plan and deliver lessons using effective teaching and learning approaches.

We work with a range of publishers to provide high-quality endorsed resources to support our *Curriculum Frameworks*. In order to provide choice for Cambridge International Schools, we encourage publishers to develop resources with varying approaches. There is no requirement for endorsed textbooks to follow the teaching order suggested in the Cambridge Primary *Schemes of Work*. If a resource is endorsed, you can be confident that all the learning objectives are covered.

## 3 Learning objectives by stage

### Overview of learning objectives

There are learning objectives for each of Stages 1 to 6 and the learning objectives in each stage are unique to that stage.

To enable effective progression in your teaching, you need to be familiar with the progression of skills across stages. This will help you to build on prior learning in every stage. The progression of learning objectives across Stages 1 to 6 is available on the Primary support site (<https://primary.cambridgeinternational.org>).

The *Cambridge Primary English as a Second Language Curriculum Framework* is not accompanied by a prescriptive list of topics. It is expected that teachers will plan lessons and select topics and resources appropriate to their learners' context. The *Schemes of Work* provide example topics to illustrate how teaching might be planned over the six stages.

To support effective development of all skills (reading, writing, speaking and listening) and Use of English, you should try to plan lessons that include learning objectives from more than one strand.

### Learning objective codes

Each learning objective has a unique code, e.g. **5Rd.01**. These codes appear in the *Schemes of Work, Teacher Guide* and other Cambridge Primary resources. Each learning objective code includes:

- the stage number, e.g. **5**
- a reporting code that appears in the feedback reports for tests and reflects the sub-strand titles, e.g. **Rd** (see table below)
- a number reflecting the order of the learning objectives in the sub-strand for the stage, e.g. **01** is the first learning objective.
